Arauco started more than 30 years ago as a Chilean forest and pulp firm...

1977:
Copec acquires Celulosa Constitucion and Celulosa Arauco. The merged firm is called “Celulosa Arauco y Constitución S.A.”

1990:
Arauco creates a forest research subsidiary named Bioforest.

1993:
Arauco begins producing solid wood, and creates Aserraderos Arauco S.A.

1994:
Arauco Generación (Agesa) starts operations, producing energy through biomass coming from its forests.

1995:
Creation of subsidiary Paneles Arauco S.A. which mill, located in Horcones, starts operations in 1998.

1996:
As part of its internationalization strategy, Arauco acquires in Argentina Alto Parana.

1999:
Acquisition of Licancel’s pulp mill from Attizhold Holding Swiss company.

2000:
Arauco’s revenues reach USD 1.2 billion.

Acquisition of Forestal Cholguán.

Acquisition of Trupán and Cholguán panel companies.
…and today is a world-class player in the forestry products industry with regional operations and global reach

- Valdivia pulp mill starts operating
- Arauco’s revenues reach USD 2.4 billion
- Nueva Aldea pulp mill starts operating
- Arauco’s revenues reach USD 3.6 billion
- First Chilean firm to issue carbon credits based on biomass
- Education Enterprise Award 2007
- Joint Venture with Stora Enso to acquire Uruguayan subsidiary of ENCE
- Acquisition of 80% of Forestal Los Lagos, Chile
- Purchase of forest investments in Argentina and Brazil from Louis Dreyfus
- Acquisition of Tafisa Brasil
- Arauco completed acquisition of 100% of the shares of Dynea Brasil S.A.
- Arauco begins the construction of Montes del Plata pulp mill (1.3 million Adt)
- Acquisition of Flakeboard in USA and Canada, and Moncure panel mill in North Carolina, USA
Arauco at a glance

- Largest forestry company in Latin America
- One of the world’s lowest cost producers
- Diversified products and cash flows
- US$ cash flows – 60% of revenues came from exports
- High potential for sustained growth and profitability
- Strong credit ratios and solid cash flows throughout pulp price cycles
- Investment Grade (BBB, Baa3, BBB− / Fitch, Moody’s, S&P)

Business Segments - Forestry
Forestry - The base for growth

- Largest owner of forestry land in the Southern Cone – 1.6 million hectares of land
- Strategically located plantations
- Ideal conditions for forests growth – fast growth rate and short harvest cycle
- Efficient forest management, guaranteeing the sustainability of the operations
- Low forest operating costs
- Strategically acquiring attractive forestry assets and continue developing new plantations
- Adoption of strict environmental policies toward holdings of native forests

Arauco’s Plantations

Business Segments - Pulp
Pulp - Arauco’s main industrial activity, generating up to 40% of the company’s sales

- Number three in the world in terms of market pulp capacity
- Global leader: Arauco’s pulp capacity production represented around 5.0% of the global bleached softwood kraft, bleached hardwood kraft and unbleached kraft as of December 2013.
- Low production cost linked to scale new technology
- Strategically located mills: proximity to forests, production facilities and ports
- Short and long fiber pulp - Kraft and Fluff process
- Exports represent more than 90% of pulp total sales
- Competitive positioning in fast growth Asian markets

Business Segments – Solid Wood
Solid Wood - Arauco is the largest sawmilling company in the Southern Hemisphere…

- Arauco owns 9 mills – 8 in Chile and 1 in Argentina.
- Additionally, Arauco owns 5 remanufacturing facilities – 4 in Chile and 1 in Argentina, and 2 plywood mills – in Chile.
- Installed annual capacity of 3.6 million m³
- Improved saw log quality enhances value of product mix
- Economies of scale in transportation costs provide growth opportunities
- US structural lumber certified

<tr>
<td>During 2013 we invested U.S.$ 40 million in environmental improvements.</td>
</tr>
</tbody>
</table>

We apply widely accepted International scientific standards to our silviculture.

We do not use genetically modified plants.
• In 2008 and 2009, we documented our carbon footprint.
• ARAUCO started the carbon footprint assessment project to determine its emissions and capture of greenhouse gasses (GHG) from the forest floor to finished products
• The assessment seeks to determine the direct and indirect GHG emissions from Arauco’s operations and value chain in Chile, Argentina, Brazil, and Uruguay
• Includes emissions from harvest operations and the transport of significant raw materials and products
• The study also will determine the amount of carbon stored in Arauco’s sustainably managed plantation forests and in its finished products
• Since 2007 Arauco has issued more than 2.2 million CERS and was the first Chilean forestry company to issue CERs through the CDM of the Kyoto Protocol
Sustainability > Safety

All our business units are certified as compliant with the OHSAS 18001 EHS standard

We create the conditions necessary to foster the career advancement and human development of all company members

Responsibility
Our operations directly benefit more than 40,000 workers and their families, as well as more than 1,800 contractors.

We grow together with our neighboring communities, building relationships based on trust and mutual benefit.
For more than 30 years Arauco has made its most sizable commitment to education

- Arauco Educational Foundation
- Alto Paraná Foundation
- Arauco, Constitución and Cholguan Schools
- Belen Educa Foundation
