January 2, 2018

To our valued PRISM TFL customers:

As we look forward to introducing new and exciting designs and textures in 2018, we need to balance and refresh our current offering. This letter serves as notification that effective today, we are moving the Prism designs listed below to inactive status. The designs contained in this notice are part of Arauco North America's bi-annual TFL design review process. Our intent is to support these designs for a limited time to allow for future planning by all our customers. Based on current usage each design has at least 6 months of inventory left. Please work with your Regional Sales Manager and Inside Sales Representative during this transition.
